CHECK SHEET FOR ADMISSION DURING SUMMER VACATION OF CHILDREN ENROLLED IN KINDERGARTEN AND OTHER FACILITIES (※)

It is not possible to simultaneously enroll your child at a licensed nursery school etc. and a kindergarten, internation school, company-led childcare project, etc. However, you may apply for admission to a licensed nursery school while kindergarten and other facilities are on summer vacation.
Persons who wish to apply for admission to a licensed nursery school while kindergarten and other facilities are on summer vacation are asked to acknowledge the below by checking off the accompanying boxes and submit this application.

※ Kindergarten and other facilities include non-registered nursery care facilities such as international schools.

☐ Upon submitting this application, please submit ① This check sheet and ② A document that indicates when summer vacation is (event schedule, etc.) in addition to standard application documents.

☐ No additional fees for entrustment are incurred.

☐ **Admission to facilities is in monthly units.**

☐ For the month of admission to a licensed nursery school, no subsidies for free early childhood education and nursery care accompanying the use of kindergarten and other facilities are offered. **Moreover, these subsidies cannot be pro-rated**.

☐ A specific example based on a summary of the above is as follows.
Ex.: The closing ceremony (final day of attendance) of a kindergarten or other facility is July 14; admission during the facility's summer vacation period of July 15 to August 31 is requested
If you are receiving a subsidiary for free early childhood education and nursery care at your child's facility of enrollment, **you will not be able to receive that subsidy whatsoever for the two months of July and August**. All expenses pertaining to admission to a kindergarten during this period will be borne by you. If you wish to receive a subsidy for the amount for which your child will attend kindergarten (amount for July), **please submit your application for a licensed nursery school only for the month of August**.

☐ Persons whose child is attending a private kindergarten that made the transition to the new childcare support system (kindergarten that transitioned to the new system)
In addition to being unable to receive the aforementioned subsidies, application to a nursery school while your child is enrolled in a kindergarten that transitioned to the new system (see below) is not allowed. You must withdraw your child from the facility that they are currently attending at the same time that you apply to a nursery school. When applying to a nursery school, please communicate in advance that you will do so to the private kindergarten that your child is attending, and submit a Notification of Withdrawal from that kindergarten.
[Kindergartens that transitioned to the new system in Shibuya City]
Shion Kindergarten, Fukuda Kindergarten, Josai Kindergarten, Harajuku Kindergarten, Shibuya Doho Kindergarten, Sasazuka Kindergarten
※ If your child is enrolled in a facility outside of Shibuya City, please contact the facility of enrollment.

☐ Persons whose child is attending a municipal kindergarten
You cannot have double enrollment in a municipal kindergarten and a licensed nursery school. You must carry out procedures to withdraw from the kindergarten.
Check: **Submission of Notification of Withdrawal from the municipal kindergarten.** □

☐ Extended break periods outside of summer vacation (such as winter, spring, or fall break) cannot be accommodated.

☐ Gradual entry is conducted even for admission for only one month. Your cooperation would be appreciated.

☐ Situations such as your child's inability to participate in events during summer vacation may occur. Please fully consider such situations upon applying.

☐ Your child will automatically be withdrawn from nursery school on the last day of the preferred admission month, so be sure to submit a Notification of Withdrawal before then.
Check: **Withdrawal on last day of (Month)____**

I hereby acknowledge the above and submit this application.
